48/B

Series of Philippine Scientific Bibliographies
No. 1

Applied Mycology

UDC 016 : 582.28 (914)

A classified bibliography of 288 Philippine publications on fungi and their role in agriculture, medical sciences, and technology.

632.4 PHYTOPATHOLOGY

635.8 MUSHROOM GROWING

631.4 SOIL MICROBIOLOGY

616.99 INFECTIOUS DISEASES (MYCOSES)

615.77 PHARMACOLOGY (ANTIBIOTICS)

663.1 INDUSTRIAL MICROBIOLOGY

674.04 WOOD PRESERVATION

SERIES OF PHILIPPINE SCIENTIFIC BIBLIOGRAPHIES

Published by the Division of Documentation, National Institute of Science and Technology, 727 Herran Street, Manila, Philippines,

No. 1

APPLIED MYCOLOGY

₱.80 per copy

$.50 per copy for orders from abroad

Postage included.

All numbers of the *Series of Philippine Scientific Bibliographies* are also available on an exchange basis to research institutions, industrial agencies, and publishers of scientific information.

In cases where neither copies of the original publication are made available by the publisher, nor reprints can be provided by the author, photographic reproductions of the articles or publications listed may be ordered from the Division of Documentation, if the Fair Copying Declaration is applicable.

It is sufficient to indicate by C, R, or M the kind of photoreproduction which is desired, and to mention the item number of the desired article together with the number of the *Series of Philippine Scientific Bibliographies.*

Rates for such reproductions are:

C — Photocopy (photostat)— ₱.50 or $.35 per page.

R — Paper enlargement from microfilm:

4" × 5" — ₱.35 or $.25 per page.

5" × 7" — ₱.50 or $.35 per page.

M — Microfilm (35 mm perforated):

— ₱ .25 or $.20 per page.

In addition the mailing costs (usually air mail) have to be charged.

PREFACE

The Division of Documentation has embarked on a project to publish currently a bibliographical series that aims to cover very specialized scientific subjects. This restrospective series will serve to complement its **Philippine Abstracts** *which has recently been launched, and which concentrates on current Philippine scientific publications.*

Most of these special bibliographies will list only Philippine publications to remedy, to some degree, the lamentable lack of any current bibliography of Philippine publications, be it books, government publications, theses, or articles from periodicals. Even if the Division of Documentation succeeds in publishing sometime in the future a current national bibliography in the field of science and technology, there will always be, neverthless, a considerable demand for retrospective bibliographies of highly specialized nature to supplement the data furnished by such a current national bibliography.

Some of the special bibliographies published in this series will not be limited strictly to Philippine publications. Philippine sources are always of special interest to the scientist, research worker, or industrialist abroad who has extremely limited access to Philippine literature in his field. But his Philippine colleague would not wish to depend solely on literature produced in his own country; he needs access to world scientific literature to be stimulated in his own work, to compare his results with data from abroad, to avoid wasteful duplication of work, to be informed about the latest techniques, procedures, and tools, i. e. to be in close contact with the developments in his special field all over the world. Some of the special bibliographies prepared in this series will, therefore, consist of papers published in the various fields irrespective of the country in which they were published. Such an international specialized bibliography, number 2 of this series, will contain for instance 500 new titles on radioactive isotopes, another one will deal with literature on wind power and its utilization. Since the bibliographical tools of the Division of Documentation are still very inadequate in spite of its rapid growth, this specialized international bibliographies will be far from complete. Nevertheless, all efforts have been exerted to comply with the three standard requirements: accuracy, speed, and completeness. The documentalist feels that he owes promptness to those who need urgently bibliographies for practical purposes, and therefore ventures on satisfying the demand without too much qualms about 100% completeness, while doing his best in being as accurate as possible.

The titles are classified according to the Universal Decimal Classification (UDC) and arranged under their subject headings and their corresponding UDC numbers. It is to be hoped that this will facilitate the use of this bibliography by those specializing in only one of the fields covered by mycology. Since UDC has

been derived from Dewey Classification, and since this last mentioned classification is used in more than 90% of all Philippine libraries and well-known in most English speaking countries, the given UDC numbers would be helpful for practical use of this bibliography.

In most cases the bibliography is meant only to inform its user of the source of information. The fact may, therefore, be stressed that the orginal text of all publications listed in this bibliography can be provided by the Division of Documentation on request. Photoduplications of the listed sources will be provided subject to conditions stated on the inside front cover of this publication.

Only editions of 500 copies and less are printed of these special bibliographies. On the other hand, their contents will be currently amended and supplemented and it is planned to print a second enlarged and revised edition as soon as enough entries will warrant a revision. Every communication in this regard and any comment on how to make these special bibliographies more valuable for practical use will be gratefully received by the Division of Documentation.

FUNGI AND PHYTOPATHOLOGY

582.28:632.4

FUNGUS AND MOLD DISEASES IN GENERAL

632.4

1. Reinking, O. A.
Philippine economic plant diseases. *Philippine Journal of Science,* July 1918, v.13A, no.4, p.165-216; Sept. 1918, no.5, p.217-274.
2. Baker, C. F.
Additional notes on Philippine plant diseases. *Philippine Agriculturist,* July 1916, v.5, no.2, p.73-78.
3. Orillo, F. T.
Controlling plant disease. *Monthly Bulletin* (UP College of Agriculture, Central Experiment Station, Los Baños (Laguna)), Nov. 1955, v.20, no.5, p.7.
4. Ela, V. M.
Department of plant pathology. *Philippine Agriculturist,* June 1959, v.43, no.1 (Golden Jubilee Number), p.129-131.
5. Jones, L. R.
Disease resistance in plants. *Philippine Agriculturist,* Dec. 1933, v.22, no.7, p.459-464. Bibl.: p.464.
6. Mendiola, N. B. and G. O. Ocfemia
The work of breeding disease resistant crop plants at the College of Agriculture at Los Baños. *Philippine Agriculturist,* Aug. 1926, v.15, no.3, p.117-128.
7. Mendiola, N. B. and R. B. Espino
Some phycomycetous diseases of cultivated plants in the Philippines. *Philippine Agriculturist,* July 1916, v.5, no.3, p.65-71. Bibl.: p.71.
8. Fajardo, T. G.
Plant-disease problems confronting truck farmers in Trinidad Valley and the vicinity of Baguio, Mountain Province, Philippine Islands. *Philippine Journal of Science,* Jan. 1934, v.53, no.1, p.67-95.
9. Ocfemia, G. O.
Notes on some economic plant diseases new in the Philippine Islands. *Philippine Agriculturist,* Sept. 1924, v.13, no.4, p.163-166.
10. Ocfemia, G. O.
Notes on some economic plant diseases new in the Philippine Islands. II. *Philippine Agriculturist,* Feb. 1931, v.19, no.9, p.581-589.
11. Ocfemia, G. O.
Our work on plant diseases. *Philippine Agriculturist,* Oct. 1934, v.23, no.5, p.467-475.
12. Ocfemia, G. O.
Two rusts hitherto unreported on economic hosts from the Philippine Islands. *Philippine Agriculturist,* March 1935, v.23, no.10, p.880-885.
13. Reyes, G. M.
Storage-rots caused by Diplodia. *Philippine Agriculturist,* Feb. 1920, v.8, no.7, p.235-260. Bibl.: p.259-260.

FUNGUS AND MOLD DISEASES OF MAIZE

632.4:633.15

14. Quebral, F. C.
Anthracnose of corn. *Philippine Agriculturist,* Nov. 1958, v.42, no.6, p.250-263.
15. Study of the Diplodia ear-rot of corn. *College of Agriculture Biweekly Bulletin,* Nov. 1, 1951, v.16, no.9, p.1-2.
16. Rosario, M. S. E. del
The fungus causing black kernel rot of corn. *Philippine Agriculturist,* March 1954, v.37, no.10, p.623-631.
17. Mendiola, N. B.
A review of "Philippine downy mildew of maize". *Philippine Agriculturist,* May 1920, v.8, no.10, p.331-334.
18. Weston, W. H. Jr.
Regarding Philippine downy mildew of maize. *Philippine Agriculturist,* March-April 1921, v.9, nos.8-9, p.193-194.
19. Orillo, F. T.
Helminthosporium diseases of corn. *Plant Industry Digest* (Philippine Bureau of Plant Industry), April-May 1954, v.17, nos.4-5, p.59-63.
20. Orillo, F. T.
Leaf spot of maize caused by Helminthosporium maydis. *Philippine Agriculturist,* Dec. 1952-Jan. 1953, v.36, nos.7-8, p.327-386. Bibl.: p.373-375.
21. Mendiola, V. B.
The Fusarium disease of corn. *Philippine Agriculturist,* July 1930, v.19, no.2, p.79-106. Bibl.: p.98-100.

22. Reyes, G. M.
An epidemic outbreak of the maize rust in Eastern and Central Visayas, Philippines. *Philippine Journal of Agriculture,* 1953, v.18, nos.1-4, p.115-126.

23. Reyes, G. M.
A note on the occurrence of a species of corn rust new to the Philippines. *Araneta Journal of Agriculture,* July-Sept. 1956, v.3, no.3, p.68-71.

24. Roldan, E. F.
Note: The occurrence of Pythium root-rot disease of maize and sugarcane in the Philippine Islands. *Philippine Agriculturist,* Oct. 1930, v.19, no.5, p.327.

25. Roldan, E. F.
Pythium root-rot disease of corn in the Philippine Islands. *Philippine Agriculturist,* Aug. 1932, v.21, no.3, p.165-176. Bibl.: p.176.

26. Roldan, E. F.
Four new diseases of Philippine economic plants caused by species of the family Pythiaceae. *Philippine Agriculturist,* Jan. 1933, v.21, no.8, p.541-546.

27. Davide, R. G.
Effects of several fungicides for seed treatment of corn. *Philippine Agriculturist,* Nov. 1957, v.41, no.6, p.295-305. Bibl.: p.305.

28. Cite measures to control corn disease. *Monthly Bulletin* (UP College of Agriculture, Central Experiment Station, Los Baños (Laguna)), Nov. 1955, v.20, no.5, p.8.

29. Crop rotation and other practices check corn diseases. *Monthly Bulletin* (UP College of Agriculture, Central Experiment Station, Los Baños (Laguna)), March 1956, v.20, no.9, p.2.

30. Calma, V. C., and others
A study of certain chemical treatments in relation to seed-borne diseases of Calauan yellow flint maize. *Philippine Agriculturist,* Feb. 1929, v.17, no.9, p.499-506. Bibl.: p.506.

FUNGUS AND MOLD DISEASES OF **SORGHUM**

632.4:633.17

31. Quebral, F. C. and L. N. Gibe
Occurrence of two sorghum diseases in the Philippines. *Philippine Agriculturist,* Oct. 1958, v.42, no.5, p.190-193.

32. Quebral, F. C. and L. N. Gibe
Cercospora leaf spot of sorghum. *Philippine Agriculturist,* Sept. 1959, v.43, no.4, p.271-280. Bibl.: p.280.

FUNGUS AND MOLD DISEASES OF **RICE**

632.4:633.18

33. Mendiola, N. B.
A review of the rice investigation at the College of Agriculture. *Philippine Agriculturist,* Dec. 1919, v.8, no.5, p.145-160.

34. Study fungus parasites causing rice diseases. *Monthly Bulletin* (UP College of Agriculutre, Central Experiment Station, Los Baños (Laguna)), May 1957, v.21, no.11, p.2.

35. Reyes, G. M.
New or little-known rice disease occurring in the Philippines. *Philippine Journal of Agriculture,* 1934, v.5, no.3, p.123-139. Bibl.: p. 138-139.

36. Reyes, G. M.
The problems confronting our rice industry. *Sugar News,* Sept. 1952, v.28, no.9, p.442-446.

37. Ocfemia, G. O.
The relation of soil temperature to germination of certain Philippine upland and lowland varieties of rice and infection by the Helminthosporium disease. (Abstract). *Philippine Agriculturist,* Jan. 1925, v.13, no.8, p.351-352.

38. Reyes, G. M.
A preliminary report on the stem-rot of rice. *Philippine Agricultural Review,* 4th Quarter, 1929, v.22, no.4, p.313-331. Bibl.: p.331.

39. Reyes, G. M.
Rice hybrids, versus stem rot diseases. *Philippine Journal of Agriculture,* 1931, v.7, no.4, p.413-415.

40. Reyes, G. M.
Studies on the control of the rice stem rot with special reference to development of resistance. *Philippine Journal of Agriculture,* 1954, v.19, nos.1-2, p.119-123.

41. Palo, M. A.
Rhizoctonia disease of rice: I. A study of the disease and of the influence of certain conditions upon the viability of the sclerotial bodies of the causal fungus. *Philippine Agriculturist,* Nov. 1926, v.15, no.6, p.361-375. Bibl.: p.374-375.

42. Valdez, R. B.
Sheath spot of rice. *Philippine Agriculturist,* Nov. 1955, v.39, no.6, p.317-336. Bibl.: p. 336.

43. Reyes, G. M.
The rice blast and its sporadic occurrence in the Philippines. *Philippine Journal of Agriculture,* 1952, v.17, nos.1-4, p.1-19.
44. Martinez, A. L.
Fungi associated with root-rot of rice. Unpublished thesis presented for graduation in the College of Agriculture, UP, 1954.
45. Abella, D. M.
A study of the performance of four varieties of rice. *College of Agriculture Biweekly Bulletin,* July 1, 1951, v.16, no.5, p.1-2.
46. Cite measures for rice disease. *Monthly Bulletin* (UP College of Agriculture, Central Experiment Station, Los Baños (Laguna)), Dec. 1955, v.20, no.6, p.3.
47. Mendiola, N. B.
A suggestion for combined general selection by gravity method and disinfection of rice seeds in the Philippines. *Araneta Journal of Agriculture,* Oct.-Dec. 1953, v.1, no.1, p.45-49.
48. Salt solution prevents growth of rice fungi. *Monthly Bulletin* (UP College of Agriculture, Central Experiment Station, Los Baños (Laguna)), Nov. 1957, v.22, no.5, p.3,7.
49. Salt solution prevents growth of rice fungi. *Sugar News,* Nov. 1957, v.33, no.11, p.610-611.

FUNGUS AND MOLD DISEASES OF **ABACA**

632.4:633.5

50. Castillo, B. S. and M. S. Celino
Wilt disease of abaca, or Manila hemp (Musa textilis Née). *Philippine Agriculturist,* June 1940, v.29, no.1, p.65-85. Bibl.: p.84-85.
51. Leoncio, J. B.
The relation to abaca, or Manila hemp of the banana-wilt fungus Fusarium cubense EFS. *Philippine Agriculturist,* June 1930, v.19, no.1, p.27-42. Bibl.: p.42.
52. Ocfemia, G. O. and V. B. Mendiola
The Fusarium associated with some field cases of heart rot of abaca. *Philippine Agriculturist,* Oct. 1932, v.21, no.5, p.296-308. Bibl.: p.308.
53. Ocfemia, G. O.
The abaca disease situation in Davao. *Philippine Agriculturist,* Aug. 1937, v.26, no.3, p.229-236.
54. Umali, D. L., and others
Reaction of varieties of abaca and its relatives to vascular disease. *Philippine Agriculturist,* Aug. 1956, v.40, no.3, p.115-119. Bibl.: p.119.
55. Serrano, F. B.
Deterioration of abaca (Manila hemp) fiber through mold action. *Philippine Journal of Science,* Jan. 1927, v.32, no.1, p.75-101. Bibl.: p.97.
56. Agati, J. A.
The anthracnose of abaca or Manila hemp. *Philippine Agriculturist,* Jan. 1925, v.13, no.8, p.337-344. Bibl.: p.344.
57. Agati, J. A., and others
Further studies on the stem-rot of abaca in the Philippines. *Philippine Journal of Agriculture,* 1934, v.5, no.4, p.191-208. Bibl.: p.207-208.
58. Calinisan, M. R., and others
Preliminary notes on the stem-rot of abaca in the Philippines. *Philippine Journal of Agriculture,* 1931, v.2, no.2, p.223-226.
59. Ela, V. M. and M. O. San Juan
Leaf spot and stem rot of abaca. *Philippine Agriculturist,* Sept.-Oct. 1954, v.38, nos. 4-5, p.251-271.
60. Ramos, M. M.
Mechanical injuries to roots and corms of abaca in relation to heart-rot disease. *Philippine Agriculturist,* Oct. 1933, v.22, no.5, p.322-337. Bibl.: p.336-337.
61. Ocfemia, G. O.
Bunchy top of abaca: its nature and control. *Philippine Agriculturist,* Aug. 1934, v.23, no.3, p.174-186. Bibl.: p.186.

FUNGUS AND MOLD DISEASES OF **OTHER FIBER PLANTS**

632.4:633.5

62. Celino, M. S.
Diseases of cotton in the Philippines: I. Sclerotium rot, with notes on other diseases. *Philippine Agriculturist,* Sept. 1936, v.25, no.4, p.302-320. Bibl.: p.316-317.
63. Jalavicharana, K., and others
Diseases of cotton in the Philippines. II. Anthracnose, soreshin, and fusarium stem and boll rot. *Philippine Agriculturist,* Feb. 1938, v.26, no.9, p.788-806. Bibl.: p.804-806.

64. Quiniones, S. S. and F. T. Orillo
Blight of kenaf. *Philippine Agriculturist,* Oct. 1952, v.36, no.5, p.235-250.

65. Sison, M. G.
The presence of trichomes on ten varieties of kenaf. *Philippine Agriculturist,* Nov.-Dec. 1954, v.38, nos.6-7, p.444-461.

66. Orillo, F. T.
An undescribed species of Helminthosporium on kapok in the Philippines. *Philippine Agriculturist,* Jan. 1955, v.38, no.8, p.548-550.

67. Orillo, F. T. and P. B. Romano
Helminthosporium leaf spot of kapok. *Philippine Agriculturist,* Feb.-March 1955, v.38, nos. 9-10, p.583-594.

68. Clara, F. M. and B. S. Castillo
Leaf spot of ramie, Bochmeria nivea (Linn.) Gaudich. *Philippine Journal of Agriculture,* 1950, v.15, no.1, p.9-20. Bibl.: p.20.

FUNGUS AND MOLD DISEASES OF **SUGAR CANE**

632.4:633.61

69. The important sugar cane diseases of the world. *Sugar News,* Dec. 1952, v.28, p.590.

70. Sugar cane diseases and their world distribution. The ISSCT Standing Committee on sugar cane diseases. *Sugar News,* Aug. 1956, v.32, no.8, p.410-418; Sept. 1956, v.32, no.9, p.510-514.

71. Abbot, E. V.
Sugar cane and its diseases. *Sugar News,* Dec. 1954, v.30, no.12, p.610-616.

72. Reinking, O. A.
Diseases of sugar cane in the Philippines. *Sugar Central and Planters News,* Oct. 1920, v.1, no.14, p.22-39, 43.

73. Copeland, E. B.
Diseases and pests of sugar cane in the Philippines. *Philippine Agriculturist,* Feb. 1917, v.5, no.10, p.343-346.

74. Report of the committee on cane diseases. *Sugar News,* Oct. 1923, v.4, no.10, p.505-520.

75. Waddell, C. W.
Review of technical progress made in P.I. during the past 3 to 5 years. *Sugar News,* Nov. 1938, v.19, no.11, p.459-464.

76. Cruz, E. E.
Outstanding contributions of the Bureau of Plant Industry to the sugar cane industry. *Sugar News,* Sept. 1957, v.33, no.9, p.463-467.

77. Tabayoyong, F. T.
Cane diseases and pests and their control. *Sugar News,* July 1958, v.34, no.7, p.343-349.

78. Reyes, G. M.
On the organization and maintenance of quarantine in relation to sugar cane coming into the Philippines. *Sugar News,* July 1959, v.35, no.7, p.319-321. Bibl.: p.321.

79. Santos, T. V.
Increased germination of sugar by disease control with Aretan. *Sugar News,* Feb. 1953, v.29, no.2, p.77.

80. Ocfemia, G. O.
The diseases of sugar cane occurring at the College of Agriculture at Los Baños and in the immediate neighborhood. *Sugar News,* Sept. 1931, v.12, no.9, p.595-599.

81. Roxas, M. L.
Sugar cane investigations at the College of Agriculture. *Philippine Agriculturist,* Dec. 1919, v.8, no.5, p.179-189. Bibl.: p.188-189.

82. Pritchett, G. H.
The principal cane diseases and insect attacks affecting the several estates of Negros. *Sugar News,* Nov. 1927, v.8, no.11, p.883-892.

83. Locsin, C. L.
Experimental work on sugar cane in Victorias 1948-1949 season including part of 1950. *Sugar News,* July 1950, v.26, no.7, p.338-363.

84. Lopez, M. E.
Routine survey of sugar cane diseases: Ormoc area. *Sugar News,* March 1954, v.30, no.3, p.115-116.

85. Roldan, E. F.
The non-infectious twisted or tangled top disease Pokkah-boeng of sugar cane in the Philippine Islands. *Sugar News,* Oct. 1931, v.12, no.10, p.726-728.

86. Roldan, E. F.
Pokkah-boeng, a disease of sugar cane found in a Java cane variety in the Philippine Islands. *Philippine Agriculturist,* Jan. 1932, v.20, no.8, p.526-529. Bibl.: p.529.

87. Celino, M. S.
The occurrence of pokkah-boeng disease of sugar cane in San Carlos, Negros Occidental. *Sugar News,* June 1952, v.28, no.6, p.251-252. Bibl.: p.252.
Journal of the Soil Science Society of the Philippines, 1951, v.3, no.2, p.108-111. Bibl.: p.111.

88. Goseco, F. P.
Preliminary report on Christisonia wightii Elmer, a new plant parasite of sugar cane. *Sugar News,* Feb. 1932, v.13, no.2, p.73-74.

89. Arthur, J. C. and G. B. Cummins
Philippine rusts in the Clemens collection, 1923-1926. *Philippine Journal of Science,* March 1936, v.59, no.3, p.437-449; Dec. 1936, v.61, no.4, p.463-488.

90. Lee, H. A.
Sugar cane smut. *Sugar Central and Planters News,* Sept. 1920, v.1, no.13, p.21-24, 28.

91. The dissemination of cane smut. *Sugar News,* Sept. 1922, v.3, no.9, p.414-419.

92. Lopez, M. and J. R. Rivera
Some aspects of sugar cane smut in the Visayas. *Sugar News,* Sept. 1958, v.34, no.9, p.478-483. Bibl.: p.483.

93. Cane disease lowers yields. Red spot attacks leaves; reduces sucrose content. *Monthly Bulletin* (UP College of Agriculture, Central Experiment Station, Los Baños (Laguna)), Oct. 1957, v.22, no.4, p.6.

94. Dillewijin, C. V. and M. E. Lopez
Leaf scorch of sugar cane. *Sugar News,* Feb. 1954, v.30, no.2, p.73-74. Bibl.: p.74.

95. Gordon, A.
Effect of Cercospora leaf spot of sugar cane in juice. *Sugar News,* Oct. 1950, v.26, no.10, p.569-570.

96. Divinagracia, G.G.
Marasmius stem rot of sugar cane. *Philippine Agriculturist,* Feb. 1957, v.40, no.9, p.469-485. Bibl.: p.485.

97. Agati, J. A.
Studies on the root-rot of the sugar cane seedlings in the nursery. *Philippine Journal of Agriculture,* 1931, v.2, no.1, p.1-24. Bibl.: p.23-24.

98. Calma, V. C.
Pythium root rot of sugar cane. Quezon City, *Eighth Pacific Science Congress of the Pacific Science Association and the 4th Far Eastern Prehistory Congress.* Abstracts of papers. 1953, p.308-309.

99. Gordon, A.
Association of a rot disease of sugar cane and irrigation water. *Sugar News,* June 1953, v.29, no.6, p.267-268.

100. Roldan, E. F. and J. P. Tecson
The red rot of sugar cane caused by Colletotrichum falcatum Went. *Philippine Agriculturist,* July 1935, v.24, no.2, p.126-141. Bibl.: p.138-139.

101. Reyes, G. M.
Yellow spot of sugarcane in the Philippines. *Sugar News,* Feb. 1950, v.26, no.2, p.60-63, 88.

102. Reyes, G. M.
A report of an unsual outbreak of the yellow spot disease of sugar cane in the Philippines. *Philippine Journal of Agriculture,* 1950, v.15, no.1, p.1-6.

103. Dignadice, P. S. and F. T. Orillo
Yellow leaf spot of sugar cane. *Sugar News,* July 1954, v.30, no.3, p.325-331. Bibl.: p.330. *Philippine Agriculturist,* June-July 1953, v.37, nos.1-2, p.36-49. Bibl.: p.45-46.

FUNGUS AND MOLD DISEASES OF **TOBACCO**

632.4:633.71

104. David, P. A. and E. F. Roldan
Important field diseases of tobacco in the Experiment Station at Los Baños, and in Northern Luzon, Philippine Islands. *Philippine Agriculturist,* Oct. 1926, v.15, no.5, p.287-301. Bibl.: p.301.

105. Aquilizan, F. A.
Seedbed spraying for the control of Cercospora leaf spot of tobacco. *Philippine Agriculturist,* Aug. 1956, v.40, no.3, p.146.

FUNGUS AND MOLD DISEASES OF **COFFEE**

632.4:633.73

106. Orillo, F. T. and R. B. Valdez
Four diseases of coffee hitherto undescribed in the Philippines. *Philippine Agriculturist,* Dec. 1958, v.42, no.7, p.292-302.

107. Welles, C. G.
Cercospora leaf spot of coffee. *Philippine Journal of Science,* Dec. 1921, v.19, no.6, p.741-745. Bibl.: p.744.

108. Coffee rust controls found. *College of Agriculture Biweekly Bulletin,* Dec. 1954, v.19, no.6, p.1, 3.

FUNGUS AND MOLD DISEASES OF **CACAO**

632.4:633.74

109. Ocfemia, G. O. and M. S. Celino
A brown bark of cacao trunk. *Philippine Agriculturist,* March 1933, v.21, no.10, p.665-673.

110. Alicbusan, L. A.
Beneficial effects on diseased cacao trees of removing infected parts and disinfecting the wounds. *Philippine Agriculturist,* March 1935, v.23, no.10, p.891-900. Bibl.: p.900.

111. Bartolome, R.
A study on the effect of fertilizer application on the incidence of cherelle wilt on cacao. *Philippine Journal of Agriculture,* 1952, v.17, nos. 1-4, p.55-84. Bibl.: p.82-84.

112. Viado, G. B., and others
Six combination sprays in the control of insect pests and diseases of cacao. *Philippine Agriculturist,* Aug. 1956, v.40, no.3, p.129-134. Bibl.: p.134.

FUNGUS AND MOLD DISEASES OF **CROPS FOR INDUSTRY, TROPICAL FRUITS AND VEGETABLES**

632.4:633.4, 633.825, 633.84, 633.885.1, 634.2, 634.58, 634.77, 635.25, 635.34, 635.5, 635.64

113. Gomez, E. T.
Leaf blight of gabi. *Philippine Agriculturist,* Dec. 1925, v.14, no.7, p.429-440. Bibl.: p.440.

114. Clara, F. M.
A Phytophthora disease of santol seedlings. *Philippine Journal of Science,* April 1928, v.35, no.4, p.411-427. Bibl.: p.425.

115. Stevens, F. L. and J. D. Atienza
Diseases of cultivated ginger. *Philippine Agriculturist,* Aug. 1931, v.20, no.3, p.171-176.

116. Vimuktanandana, Y. Y. and M. S. Celino
Anthracnose of black pepper (Piper nigrum Linn.). *Philippine Agriculturist,* July 1940, v.29, no.2, p.124-141. Bibl.: p.139-140.

117. Celino, M. S.
Blight of cinchona seedlings. *Philippine Agriculturist,* July 1934, v.23, no.2, p.111-127. Bibl.: p. 123.

118. Reyes, G. M. and R. Romasanta
Varietal susceptibility of peanuts to black spot (Cercospora personata (B & C) Ell & Ev.) *Philippine Journal of Agriculture,* 1940, v.11, no.4, p.371-381. Bibl.: p.380.

119. Roldan, E. F. and A. F. Querijero
Black spot of peanut. *Philippine Agriculturist,* Jan. 1939, v.27, no.8, p.669-682. Bibl.: p. 679.

120. Stevens, F. L. and M. S. Celino
Papaya leaf spot. *Philippine Agriculturist,* June 1932, v.21, no.1, p.9-14.

121. Reinking, O. A.
The distribution of banana wilt. *Philippine Journal of Science,* March 1934, v.53, no.3, p.229-243. Bibl.: p.241-242.

122. Ocfemia, G. O. and M. A. Palo
The relation of certain Philippine commercial varieties of banana to the wilt disease due to Fusarium cubense EFS. *Philippine Agriculturist,* Sept. 1926, v.15, no.4, p.243-244.

123. Roldan, E. F.
The soft rot of pineapple in the Philippines and other countries. *Philippine Agriculturist,* Feb. 1925, v.13, no.9, p.397-406. Bibl.: p.405.

124. Agati, J. A.
Studies on the control of downy mildew blight of onion in the Philippines particularly in Ilocos Norte. *Philippine Journal of Agriculture,* 1952, v.17, nos.1-4, p.153-173. Bibl.: p.173.

125. Gamo, E. B.
A Fusarium bulb rot of onion. (Abstract). *Philippine Agriculturist,* March 1929, v.17, no.10, p.647.

126. Palo, M. A.
A Fusarium causing bulb rot of onion in the Philippines. *Philippine Agriculturist,* Nov. 1928, v.17, no.6, p.301-316. Bibl.: p.311-313.

127. Atienza, M.
Sclerotium disease of tomato and pepper. *Philippine Agriculturist,* Feb. 1927, v.15, no.9, p.579-588. Bibl.: p.587-588.

128. Calo, R. P.
Anthracnose of tomato. *Philippine Agriculturist,* Oct. 1957, v.41, no.5, p.273-287. Bibl.: p.286-287.

129. Endrinal, D. M. and M. S. Celino
Septoria leaf spot of tomato. *Philippine Agriculturist,* Dec. 1940, v.29, no.7, p.593-610. Bibl.: p.609-610.

130. Leon, R. G. de
Test of fungicides for the control of tomato leaf mold. *Philippine Agriculturist,* Oct. 1957, v.41, no.5, p.268-272.

131. Orillo, F. T.
An undescribed species of Melanconium on tomato in the Philippines. *Philippine Agriculturist,* Nov. 1951, v.35, no.6, p.338-339.

132. Orillo, F. T. and B. B. Bombay
Melanconium fruit rot of tomato. *Philippine Agriculturist,* Aug. 1952, v.36, no.3, p.114-130. Bibl.: p.127.

133. Fajardo, T. G. and M. A. Palo
A serious leaf spot of Chinese celery, cabbage, wongbok, and other cruciferous plants in Trinidad Valley, Mountain Province, Luzon. *Philippine Journal of Agriculture,* 1934, v.5, no.3, p.143-153. Bibl.: p.152-153.

134. Low vegetable yield traced to pepper rot. *Monthly Bulletin* (UP College of Agriculture, Central Experiment Station, Los Baños (Laguna)), Sept. 1957, v.22, no.3, p.8.

135. Palo, M. A.
The Phomopsis disease of eggplant and its control. *Philippine Journal of Agriculture,* 1936, v.7, no.3, p.289-312. Bibl.: p.311-312.

136. Clomera, V. S.
Phyllosticta leaf spot and fruit rot of eggplant. *Philippine Agriculturist,* June-July 1957, v.41, nos.1-2, p.37-52. Bibl.: p.52.

137. Alicbusan, R. V.
Cercospora disease of okra (Abelmoschus esculentus (L.) Moench) in the Philippines. *Philippine Agriculturist,* Nov. 1958, v.42, no.6, p.264-266.

FUNGUS AND MOLD DISEASES OF **CITRUS**

632.4:634.3

138. Ocfemia, G. O.
A review: Citrus diseases and their control. *Philippine Agriculturist,* Oct. 1936, v.25, no.5, p.462-464.

139. Bombay, B. B.
Parasitic diseases of citrus in the Philippines and their control. *Plant Industry Digest* (Philippine Bureau of Plant Industry), May-June 1956, v.19, nos.5-6, p.8-41. Bibl.: p.41.

140. Ocfemia, G. O., and others
The gum disease of citrus occuring in the Philippines. *Philippine Agriculturist,* March 1936, v.24, no.10, p.811-838. Bibl.: p.837-838.

141. Lee, H. A. and H. S. Yates
Pink disease of citrus. *Philippine Journal of Science,* June 1919, v.14, no.6, p.657-673.

142. Lee, H. A.
Black spot of citrus fruits caused by Phoma citricarpa McAlpine. *Philippine Journal of Science,* Dec. 1920, v.17, no.6, p.635-643.

143. Lee, H. A.
Dry rot of citrus fruits caused by a Nematospora species. *Philippine Journal of Science,* June 1924, v.24, no.6, p.719-733.

144. Lee, H. A.
The comparative resistance to foot rot of various citrus species as root stocks. *Philippine Journal of Science,* June 1925, v.27, no.2, p.243-255. Bibl.: p.254.

145. Ela, R. M.
Four insecticide-fungicide combination sprays in the control of some insect pests affecting citrus seedlings in the Philippines. *Philippine Agriculturist,* Nov. 1955, v.39, no.6, p.354-364. Bibl.: p.363-364.

146. Welles, C. G.
Cercospora leaf spot of Averrhoa carambola. *Philippine Journal of Science,* Dec. 1921, v.19, no.6, p.747-751.

FUNGUS AND MOLD DISEASES OF **MANGO**

632.4:634.4

147. Palo, M. A.
A sclerotium seed rot and seedling stem rot of mango. *Philippine Journal of Science,* Nov. 1933, v.52, no.3, p.237-258. Bibl.: p.258.

148. Serrano, F. B.
Blossom-blight of mangoes in the Philippines. *Philippine Journal of Science,* March 1933, v.50, no.3, p.211-277. Bibl.: p.271.

149. Alicbusan, R. V. and L. A. Schafer
Diplodia rot of mango. *Philippine Agriculturist,* Dec. 1958, v.42, no.7, p.319-322.

150. Palo, M. A.
Anthracnose and important insect pests of the mango in the Philippines with report on blossom-spraying experiments. *Philippine Journal of Science,* June 1932, v.48, no.2, p.209-235. Bibl.: p.231.

151. Ocfemia, G. O. and J. A. Agati
The cause of the anthracnose of avocado, mango, and upo in the Philippine Islands. *Philippine Agriculturist,* Sept. 1925, v.14, no.4, p.199-216. Bibl.: p.214-215.

FUNGUS AND MOLD DISEASES OF **COCONUT**

632.4:634.616

152. Espino, R.B.
A review of the coconut investigations at the College of Agriculture. *Philippine Agriculturist,* Dec. 1919, v.8, no.5, p.161-178. Bibl.: p.177-178.

153. Aldaba, V. C.
A study of condition of coconut trees in the leaf-miner infected area I. *Philippine Journal of Agriculture,* 1931, v.2, no.1, p.51-65. Bibl.: p.65; II. p.69-80. Bibl.: p.80.

154. Celino, M. S.
Note: A fungus disease of the coconut leaf miner (Promecotheca cumingii Baly). *Philippine Agriculturist,* Sept. 1930, v.19, no.4, p.253.

155. Celino, M. S.
A fungus disease of the coconut leaf miner (Promecotheca cumingii Baly). *Philippine Agriculturist,* Dec. 1932, v.21, no.7, p.481-490. Bibl.: p. 490.

156. Stevens, F. L.
Two fungus invasions often following the coconut leaf miner Promecotheca cumingii Baly. *Philippine Agriculturist,* July 1932, v.21, no.2, p.80-82.

157. Gadd, C. J.
Nut fall of coconuts. (Abstract). *Philippine Agriculturist,* March 1925, v.13, no.10, p.456.

158. Ocfemia, G. O.
Bud rot of coconut. *Philippine Agriculturist,* June 1934, v.23, no.1, p.4-10, Bibl.: p.10.

159. Reinking, O. A.
Phytophthora faberi Maulb.: The cause of coconut bud rot in the Philippines. *Philippine Journal of Science,* Jan. 1919, v.14, no.1, p.131-151. Bibl.: p.149-150.

FUNGUS AND MOLD DISEASES OF **FLOWERS**

632.4:635.9

160. Reyes, G. M.
A sclerotial stem rot of everlasting, Helichrysum bracteatum Willd. *Philippine Journal of Agriculture,* 1934, v.5, no.4, p.259-261.

161. Fajardo, T. G.
Sclerotium stem rot of Delphinium and other ornamental plants in Trinidad Valley, Mountain Province, Philippine Islands. *Philippine Journal of Science,* July 1933, v.51, no.3, p.447-455. Bibl.: p.453.

162. Stevens, F. L.
Two rusts on Wrightia laniti (Blco.) Meer. *Philippine Agriculturist,* March 1932, v.20, no.10, p.627-631.

163. Orchid diseases in P.I. noted. *Monthly Bulletin* (UP College of Agriculture, Central Experiment Station, Los Baños (Laguna)), Aug. 1958, v.23, no.2, p.3, 8.

164. Ela, V. M.
V. Diseases of orchids in the Philippines. *Philippine Agriculturist,* March 1958, v.41, no.10, p.531-537.

165. Santos, P. R.
Leaf spot of derris. *Philippine Agriculturist,* Jan. 1941, v.29, no.8, p.641-659. Bibl.: p.658.

166. Rodrigo, B. B.
Phythium rot of Brazilian fire tree (Schizolobium excelsum Vogel) seedlings. *Philippine Journal of Forestry,* 1st to 2nd quarter, 1955, v.11, nos.1-2, p.87-99. Bibl.: p.97.

167. Marañon, J. M.
A biochemical study of resistance to mildew in Oenothera. *Philippine Journal of Science,* April 1924, v.24, no.4, p.369-441.

168. Ela, V. M.
The Curvularia diseases of Gladiolus in the Philippines. *Philippine Agriculturist,* March 1952, v.35, no.10, p.517-533. Bibl.: p.533.

FUNGI AND INSECT PESTS

582.28:632.76 591.2:595.72

169. Reyes, G. M.
An unreported fungus disease of the Philippine migrating locust. *Philippine Journal of Science,* Nov. 1932, v.49, no.3, p.407-418. Bibl.: p.415-416.

FUNGICIDES

632.952

170. Yenko, F. M.
A study of the resistance of the fungi to physical and chemical conditions. Manila, 1929, 26p. (Thesis, Mass. Institute of Technology, Cambridge, Mass.) Mimeo.

171. Fungicides protect seeds from soil-borne diseases. Pathologists list chemicals for rice, corn seeds. *Monthly Bulletin* (UP College of Agriculture, Central Experiment Station, Los Baños (Laguna)), April 1958, v.22, no.10, p.2.

172. Chemicals save rice, corn seeds. *Monthly Bulletin* (UP College of Agriculture, Central Experiment Station, Los Baños (Laguna)), Nov. 1958, v.23, no.5, p.2.

173. Tamayo, B. P. and F. T. Orillo
Seed treatment of vegetables for control of damping-off. *Philippine Agriculturist,* March 1957, v.40, no.10, p.519-524.

174. Blanco, L. C.
Comparative effects of Arasan, Granosan, and Semesan dust treatments on vegetable seeds as a control for damping-off. *Araneta Journal of Agriculture,* April-June 1957, v.14, no.2, p.57-64. Bibl.: p.62.

175. Park, F. J.
Suggested local research on plant chemotherapy in the light of recent development abroad. *Araneta Journal of Agriculture,* Oct.-Dec. 1953, v.1, no.1, p.28-36. Bibl.: p.35-36.

176. Africa, E. M.
The minimum Bordeaux application for the control of Hemileia. *Philippine Agriculturist and Forester,* May 1918, v.6, no.9, p.251-271. Bibl.: p.271.

177. Phygon downs downy mildew. *Monthly Bulletin* (UP College of Agriculture, Central Experiment Station, Los Baños (Laguna)), Oct. 1956, v.21, no.4, p.2.

178. Treat seeds with hot water to kill disease. *Monthly Bulletin* (UP College of Agriculture, Central Experiment Station, Los Baños, (Laguna)), Nov. 1955, v.20, no.5, p.1, 6.

MUSHROOM GROWING AND EUMYCETES IN GENERAL

582.28:635.8

179. Vicencio, A. S.
A study of mushroom culture in the Philippines. *Philippine Agriculturist,* Aug. 1916, v.5, no.4, p.119-128. Bibl.: p.128.

180. Costes, A. F.
Mushroom culture in PSAT. *Agricultural and Industrial Life,* March 1960, v.22, no.3, p.14, 32.

181. Aguinaldo, J. D.
"Here's my method of mushroom growing". *Agricultural and Industrial Life,* April 1960, v.22, no.4, p.11, 37.

182. Brown, W. H. and P. W. Graff
Factors influencing fungus succession on dung cultures. *Philippine Journal of Science,* Feb. 1913, v.8C, no.1, p.21-29.

183. Mendoza, J. M.
Philippine mushrooms. *Philippine Journal of Science,* Jan.-Feb. 1938, v.65, nos.1-2, p.1-128. Bibl.: p.116-117.

184. Palo, S. L.
The poisonous Philippine mushrooms. *Philippine Journal of Science,* Dec. 1935, v.58, no.4, p.495-501.

185. Palo, S. L.
Lepiota americana, an immigrant edible mushroom. *Philippine Journal of Science,* March 1934, v.53, no.3, p.223-227.

186. Mendoza, J. M. and S. L. Palo
A revision of Philippine lepiota. *Philippine Journal of Science,* July 1938, v.66, p.363-377.

187. Ricker, P. J.
A list of known Philippine fungi. *Philippine Journal of Science,* Sept. 15, 1906, v.1, supplement IV. p.277-294. Bibl.: p.293-294.

188. Sydow, H. and P. Sydow
Notes and descriptions of Philippine fungi — II. *Leaflets of Philippine Botany,* Oct. 25, 1913, v.6, art. 95, p.1919-1933.

189. Roldan, E. F.
A review: an enumeration of Philippine fungi. *Philippine Agriculturist,* Sept. 1937, v.26, no.4, p.390-391.

190. Stevens, F. L.
New or noteworthy Philippine fungi. *Philippine Agriculturist,* July 1931, v.20, no.2, p.87-91.

191. Sydow, H. and P. Sydow
Descriptions of some new Philippine fungi. *Philippine Journal of Science,* May 1913, v.8C, p.195-196.

192. Sydow, H. and P. Sydow
Enumeration of Philippine fungi, with notes and descriptions of new species. I. Micromycetes. *Philippine Journal of Science,* July 1913, v.8C, no.4, p.265-285; Dec.1913, no.6, p.475-509.

193. Yates, H. S.
Some recently collected Philippine fungi. *Philippine Journal of Science,* Nov. 1917, v.12C, no.6, p.361-380; Nov. 1918, v.13C, no.6, p.361-385.

194. Mendoza, J.M.
New or noteworthy Philippine fungi, II. *Philippine Journal of Science,* Oct. 1932, v.49, no.2, p.185-196.

195. Mendoza, J. M. and S. L. Palo
New or noteworthy Philippine fungi, III. *Philippine Journal of Science,* June 1941, v.75, no.2, p.165-183.

196. Reinking, O. A.
Philippine edible fungi. *Bureau of Forestry Bulletin,* 1921, v.3, no.22, p.97-147.

197. Copeland, E. B.
II. New species of edible Philippine fungi. *P. I. Bureau of Government Laboratories Publications,* no.28, July 1905, p.141-146.

198. Sydow, H. and P. Sydow
Fungi from the island of Palawan. *Leaflets of Philippine Botany.* May 20, 1912, v.5, art. 76, p.1533-1547.

199. Sydow, H.
Fungi from the province of Sorsogon. *Leaflets of Philippine Botany,* April 20, 1925, v.9, art. 123, p.3113-3138.

200. Sydow, H.
Parasitic fungi from Mt. Pinatubo. *Leaflets of Philippine Botany,* April 20, 1925, v.9, art. 125, p.3173-3177.

201. Rehm, H.
Ascomycetes philippinenses collecti a Clar. C. F. Baker. *Philippine Journal of Science,* May 1913, v.8C, no.3, p.181-194; July 1913, no.4, p.251-263; Nov. 1913, no.5, p.391-405;
Leaflets of Philippine Botany, Nov. 1, 1913, v.6, art.96, p.1935-1947; May 20, 1913, art. 103, p.2191-2237; June 27, 1914, art.105, p.2257-2281; Dec. 29, 1915, art.117, p.2921-2933; Jan. 14, 1916, v.8, art.118, p.2935-2961.

202. Reinking, O. A.
Higher basidiomycetes from the Philippines and their hosts. *Philippine Journal of Science,* Nov. 1919, v.15, no.5, p.479-490; Feb. 1920, v.16, no.2, p.167-179; May 1920, no.5; p.527-537; Oct. 1920, v.17, no.4, p.363-374; July 1921, v.19, no.1, p.91-114.

203. Graff, P. W.
Additions to the Basidiomycetes flora of the Philippines. *Philippine Journal of Science,* Nov. 1913, v.8C, no.5, p.299-309.

204. Hennings, A. P.
Fungi philippinenses, I. *Philippine Journal of Science,* June 1908, v.3C, no.2, p.41-58.

205. Sydow, H. and P. Sydow
Fungi philippinenses. *Philippine Journal of Science,* July 1910, v.5C, p.163-166.

206. Reinking, O. A. and H. W. Wollenweber
Tropical Fusaria. *Philippine Journal of Science,* Feb. 1927, v.32, no.2, p.103-253.

207. Sydow, H.
The Amboina fungi collected by C. B. Robinson. *Philippine Journal of Science,* Aug. 1922, v.21, no.2, p.131-146.

208. Merrill, E. D.
The Philippine Freycinetia. *Philippine Journal of Science,* Oct. 22, 1908, v.3C, no.5, p.307-315.

209. Mendoza, J. M. and S. L. Palo
A revision of the genus Psalliota in the Philippines. *Philippine Journal of Science,* July 1940, v.72, no.3, p.337-347.

210. Baker, C. F.
The lower fungi of the Philippine Islands. A bibliographic list chronologically arranged, and with localities and hosts. *Leaflets of Philippine Botany,* Jan. 14, 1914, v.6, art.102, p.2065-2190; Nov. 14, 1914, v.7, art. 113, p.2417-2529.

211. Baker, C. F.
Second supplement to the list of the lower fungi of the Philippine Islands. A bibliographic list chronologically arranged, and with localities and hosts. *Philippine Journal of Science,* Nov. 1931, v.46, no.3, p.479-536.

212. Roldan, E. F.
New or noteworthy lower fungi of the Philippine Islands. *Philippine Journal of Science,* June 1936, v.60, no.2, p.119-123; May 1938, v.66, no.1, p.7-13.

213. Brown, W. H.
The fungi cultivated by termites in the vicinity of Manila and Los Baños. *Philippine Journal of Science,* July 1918, v.13C, no.4, p.223-231.

214. Bocobo, F. C. and L. Suguitan
Atmospheric mold counts in Manila and Quezon City, Philippines. *Journal of the Philippine Medical Association,* March 1959, v.35, no.3, p.161-168. Bibl.: p.168.

215. Stevens, F. L.
A misnomer in the use of the term sooty mold. *Philippine Agriculturist,* Jan. 1931, v.19, no.8, p.549.

FUNGI AND SOIL MICROBIOLOGY

582.28:631.4

216. Celino, M. S.
The role of soil microbes in agriculture. *Journal of the Soil Science Society of the Philippines,* 1949, v.1, no.2, p.66-68. Bibl.: p.68.

217. Celino, M. S., and others
An (sic!) hitherto unexplored field of soil microbiology in the Philippines. *Journal of the Soil Science Society of the Philippines,* 1952, v.4, no.1, p.31-36. Bibl.: p.36.

218. Aquino, D. I.
The soil and its micro-organic population. *Sugar News,* May 1940, v.21, no.5, p.229-230, 232.

219. Aquino, D. I. and R. M. Orig
Biological and chemical properties of some soil types at the College of Agriculture. *Philippine Agriculturist,* Dec. 1941, v.30, no.7, p.528-540. Bibl.: p.533-534.

220. Tamolang, F.
Control of rhizoctonia damping-off of agoho (Casuarina equisetifolia Linn.) by soil treatment and by special growing media. *Philippine Journal of Forestry,* 2nd quarter, 1949, v.6, no.2, p.229-238. Bibl.: p.236.

221. Zamuco, B. E.
Control of rhizoctonia damping-off of Benguet pine (Pinus insularis Endl.) seedlings by chemical treatment of soils and seeds. *Philippine Journal of Forestry,* 2nd quarter, 1955, v.11, nos.1-2, p.1-7. Bibl.: p.7.

222. Ramos, J. C.
Phythium damping-off of seedlings. *Philippine Agriculturist,* July 1926, v.15, no.2, p.85-97. Bibl.: 96-97.

223. Reinking, O. A.
Soil in relation to banana and abaca diseases. *Journal of the Soil Science Society of the Philippines,* 1951, v.3, no.1, p.21-25. Bibl.: p.25.

224. Soil treatment sips losses in tobacco beds. *Monthly Bulletin* (UP College of Agriculture, Central Experiment Station, Los Baños (Laguna)), Nov. 1957, v.22, no.5, p.1.

225. Soil treatment for tobacco diseases. *Sugar News,* Nov. 1957, v.33, no.11, p.611.

226. Uichanco, L. B. and F. M. Sacay
Philippine Agriculture. Volume I: Field crops. College, Laguna, College of Agriculture, University of the Philippines, 1949. xii, 863p.

227. Celino, M. S.
Drugs from soil microbes and seedbearing plants. Manila, Bureau of Soil Conservation, 1954. 2p. mimeo.

228. Carey, F.
Antibotic "wonder drug" stimulate (sic!) plant growth. *Sugar News,* 1952, v.28, no.10, p.506.

PATHOGENIC FUNGI AND MYCOSES

582.28:616.992

229. Simuangco, S. A.
Status of fungus diseases in the Philippines. *Journal of the Philippine Medical Association,* April 1956, v.32, no.4, p.201-206. Bibl.: p.205-206.

230. Bocobo, F. C.
Dermatological private practice in Manila, Philippines. *Journal of the Philippine Medical Association,* July 1958, v.34, no.7, p.450-458. Bibl.: p.458.

231. Bocobo, F. C.
Nutrition and metabolism of pathogenic fungi. *Journal of the Philippine Medical Association,* Oct. 1952, v.28, no.10, p.598-612. Bibl.: p.610-612.

232. Wade, H. W.
Cultivation of a pathogenic fungus which exhibits botryoid and leucocyte-like parasitic forms. *Philippine Journal of Science,* Nov. 1916, v.11B, no.6, p.267-280. Bibl.: p.280.

233. Danger of secondary infection by fungus growths. *MD Journal,* April 1956, v.5, no.4, p.166.

234. Mycology society extends invitation. *IST Newsletter,* March 1956, v.1, no.2, p.6.

235. Bocobo, F. C.
Mycologic technique in medical practice. *Journal of the Philippine Medical Association,* July 1949, v.25, no.7, p.395-399. Bibl.: p.398-399.

236. Bocobo, F. C.
The role of fungi in allergy. *Journal of the Philippine Medical Association,* Dec. 1951, v.27, no.12, p.733-738. Bibl.: p.738.
237. Mendoza, J. T.
Histoplasmosis: a report of a case. *Monthly Bulletin of the Bureau of Health,* Jan. 1947, v.23, no.1, p.33-40. Bibl.: p.40.
238. Schobl, O.
The etiology of trichomycosis palmellina in the Philippine Islands. *Philippine Journal of Science,* June 1914, v.9B, no.3, p.219-224. Bibl.: p.224.
239. Strong, R. P.
A study of some tropical ulcerations of the skin with particular reference to their etiology. *Philippine Journal of Science,* Jan. 1906, v.1, no.1, p.91-113.
240. Manalang, C.
Report of a case of rhinosporidiosis. *Philippine Journal of Science,* April 1929, v.38, no.4, p.437-440.
241. Barber, M. A.
The infection of Achlya with various micro-örganisms. *Philippine Journal of Science,* Oct. 1913, v.8B, no.5, p.373-383.

CANDIDIASIS

582.28:616.992

242. Reyes, A. C. and A. Reyes
Studies on Candida albicans infection in Filipino children. I. Occurrence of C. albicans in the normal mouth. *Acta Medica Philippina,* July 1956-June 1957, (Semicentennial Number), v.13, nos.1-4, p.147-150. Bibl.: p.150.
243. Reyes, A. and A. C. Reyes
Studies on Candida albicans infection in Filipino children. II. Prevalence of oral moniliasis. *Acta Medica Philippina,* July 1956 - June 1957 (Semicentennial Number), v.13, nos.1-4, p.151-155. Bibl.: p.154-155.
244. Guerrero, R. M., and others
Candidiasis in Filipino children. *Journal of the Philippine Medical Association,* April 1957, v.33, no.4, p.271-279.
245. Austria, G. F.
Candidiasis. *Journal of the Philippine Medical Association,* April 1957, v.33, no.4, p.256.
246. Aragon, G. T. and B. del Rosario
Candidiasis among pregnant Filipino women. *Journal of the Philippine Medical Association,* April 1957, v.33, no.4, p.291-292. Bibl.: p.292
247. Roda, A. P., and others
Incidence of the species Candida from different sources and their sensitivity to mycostatin. *Journal of the Philippine Medical Association,* April 1957, v.33, no.4, p.251-255. Bibl.: p.255.
248. Aragon, G. T. and C. Halde
The incidence of Candida albicans in the lower tract of pregnant Filipino women. *Acta Medica Philippina,* Oct.-Dec. 1954, v.11, no.2, p.677-685. Bibl.: p.685.
249. Sepulveda, G. Jr., and others
Candidiasis (Monilia): its incidence in female lower genital tract and the therapeutic effect of mycostatin in vulvo-vaginitis due to Candida albicans. *Journal of the Philippine Medical Association,* April 1957, v.33, no.4, p.280-290. Bibl.: p.289-290.
250. Recio, P. M. and A. de Leon
Candidiasis of the rectoanal tract. *Journal of the Philippine Medical Association,* April 1957, v.33, no.4, p.293-295.
251. Jacalne, A. V.
Studies on the isolation and identification of Candida species and their in vitro sensitivity to mycostatin. *Acta Medica Philippina,* Jan.-March 1958, v.14, no.3, p.151-158. Bibl.: p.157-158.
252. Monilia (Candida) albicans — saprophyte or pathogen? *MD Journal,* Oct. 1957, v.6, no.10, p.433-436, Bibl.: p.436.
253. Smith, L. W.
Monilia psilosis Ashford in severe anaemia associated with the sprue syndrome. *Philippine Journal of Science,* April 1924, v.24, no.4, p.447-465. Bibl.: p.462-463.
254. Simuangco, S. A., and others
Cutaneous candidiasis: a clinical and therapeutic study. *Journal of the Philippine Medical Association,* April 1957, v.33, no.4, p.257-270. Bibl.: p.268-270.
255. Moniliasis — a frequent complication of antibiotic therapy. *Journal of the Philippine Pharmaceutical Association,* March 15, 1957, v.44, no.3, p.96-100. Bibl.: p.99-100.
MD Journal, Sept. 1957, v.6, no.9, p.388-390. Bibl.: p.390.
256. Sepulveda, G. Jr., and L. M. Ibarra
Mycostatin for the local treatment of Monilia vulvo-vaginitis: a preliminary report. *Journal of the Philippine Medical Association,* July 1956, v.32, no.7, p.421-429. Bibl.: p.429.
257. Drug effective against moniliasis, specialists find. *MD Journal,* Jan. 1957, v.6, no.1 p.38.

BLASTOMYCOSIS

582.28:616.992

258. Phalen, J. M. and H. J. Nichols
Blastomycosis of the skin in the Philippine Islands. *Philippine Journal of Science,* Nov. 1908, v.3B, no.5, p.395-403. Bibl.: p.403.

259. Wade, H. W.
Note on the portal of entry in experimental chronic pulmonary (systemic) blastomycosis. *Philippine Journal of Science,* Sept. 1918, v.13B, no.5, p.271-274.

260. Simuangco, S. A. and C. Halde
Chromoblastomycosis: first case in the Philippines. *Journal of the Philippine Medical Association,* March 1955, v.31, no.3, p.117-120. Bibl.: p.120.

BRONCHOMYCOSIS

582.28:616.992

261. Viola, M. S. and A. P. Roda
Bronchopulmonary moniliasis: with a case report. *Journal of the Philippine Medical Association,* June 1956, v.32, no.6, p.347-364. Bibl.: p.363-364.

262. Castellani, A.
Tropical bronchomycosis. Observations on a new species of Epidermophyton found in tinea cruris. A new intestinal spirillum. *Philippine Journal of Science,* July 1910, v.5B, no.2, p.197-207.

TINEA CAPITIS

582.28:616.992

263. Simuangco, S. A. and C. Halde
Tinea capitis in the Philippines, with a report survey of 2307 students. *Journal of the Philippine Medical Association,* Feb. 1955, v.31, no.2, p.61-64.

264. Simuangco, S. A., and others
Further report on tinea capitis in the Philippines. *Journal of the Philippine Medical Association,* Feb. 1956, v.32, no.2, p.82-86. Bibl.: p.86.

265. Simuangco, S. A.
Hair concretions seen in the Philippines. *Journal of the Philippine Medical Association,* June 1953, v.29, no.6, p.285-287. Bibl.: p.287.

MYCETOMA AND DERMATOPHYTOSIS

582.28:616.992

266. Monserrat, C.
Pseudomycetoma in the Philippines, with report of one case. *Philippine Journal of Science,* Nov. 1932, v.49, no.3, p.469-481.

267. Hooton, A.
Some clinical aspects of mycetoma an unusual form of callosity complicating it. *Philippine Journal of Science,* July 1910, v.5B, no.2, p.215-218.

268. Musgrave, W. E. and M. T. Clegg
Streptothricosis with special reference to the etiology and classification of mycetoma. *Philippine Journal of Science,* Dec. 1908, v.3B, no.6, p.447-544. Bibl.: p.485-542.

269. Musgrave, W. E. and M. T. Clegg
The etiology of mycetoma: Report of a case of the ochroid variety occurring in the Philippine Islands, and caused by a new species of Streptothrix (Streptothrix freeri). *Philippine Journal of Science,* Dec. 1907, v.2B, no.6, p.477-510. Bibl.: p.501-510.

270. Bocobo, F. C. and D. Garcia
The incidence of dermatophytosis of the feet among Filipino high school students. *Journal of the Philippine Medical Association,* Feb. 1950, v.26, no.2, p.169-176. Bibl.: p.175-176.

271. Bocobo, F. C. and P. Gutierrez
Dermatophytosis among Filipinos: its incidence and flora in the outpatient dermatological clinic of the Philippine General Hospital. *Acta Medica Philippina,* Jan.-March 1952, v.8, no.3, p.131-149. Bibl.: p.146-149.

272. Bocobo, F. C. and D. Garcia
Further observations on dermatophytosis of the feet among Filipino students: its incidence among college students. *Journal of the Philippine Medical Association,* March 1954, v.30, no.3, p.121-125. Bibl.: p.125.

ANTIBIOTICS FOR FIGHTING MYCOSES

582.28:615.779

273. Guevara, R.
Recent advances in clinically useful antibiotics. *Journal of the Philippine Medical Association,* Feb. 1955, v.31, no.2, p.71-81.

274. McCoy, E. and J. M. Malixi
Comparison of the antifungal activity of antibiotic B-40 and bacillin. *Journal of the Philippine Pharmaceutical Association,* Feb. 15, 1954, v.41, no.2, p.47-67. Bibl.: p.58-59.

275. Saleeby, N. M.
The treatment of human beriberi with autolyzed yeast extract. *Philippine Journal of Science,* Jan. 1919, v.14, no.1, p.11-12.

276. Barber, M. A.
The pipette method in the isolation of single micro-organisms and in the inoculation of substances into living cells. *Philippine Journal of Science,* Aug. 1914, v.9B, no.4, p.307-360.

277. Filipin, new antibotic fights fungi. *IST Newsletter,* March 1956, v.1, no.2, p.6.

INDUSTRIAL MYCOLOGY

581.6:663.1

278. Basaca, M. G.
Production of yeast from molasses. *Philippine Journal of Science,* March 1952, v.81, no.1, p.75-79. Bibl.: p.79.

279. Villanueva, L. J. and F. T. Lazaro
Lactic acid fermentation of sugar and final molasses by Rhizopus oryzae Went and Pr. Geerligs. *Philippine Agriculturist,* Dec. 1941, v.30, no.7, p.555-572. Bibl.: p.566.

280. Yenko, F. M.
A process for the manufacture of a meat substitute from molasses. *Sugar News,* Sept. 1953, v.29, no.9, p.402-404. Bibl.: p.404.

281. San Juan, M. O.
Dried brewer's yeast as a supplement to a ration for growing chicks. *Philippine Agriculturist,* June-July 1953, v.37, nos.1-2, p.57-61. Bibl.: p.61.

282. Zaldivar, J. P.
The influence of ferric chloride and of zinc sulfate on the production of citric acid from cane sugar solutions, by fermentation with Aspergillus niger. *Philippine Agriculturist,* Feb. 1941, v.29, no.9, p.738-752. Bibl.: p.748-749.

283. Hipolito, G., and others
Studies on thiamin and protein contents of some local yeasts. *Philippine Journal of Science,* March 1958, v.87, no.1, p.15-26. Bibl.: p.25-26.

284. Yenko, F. M., and others
Effect of molds on bakawan bark and tanning liquors. *Philippine Journal of Science,* July 1936, v.60, no.3, p.241-249.

285. Baens, L. and F. M. Yenko
Effect of molds on some Philippine tanning liquors. II. *Philippine Journal of Science,* Dec. 1936, v.61, no.4, p.417-427.

WOOD-DESTROYING FUNGI

581.6:674.04

286. Roldan, E. F.
Hyphal penetration of the staining fungus Ceratostomella sp. in rattan and its significance in controlling stain. *Philippine Journal of Science,* March 1958, v.87, no.1, p.37-45. Bibl.: p.43.

287. Siruno, F. S.
The effect on the growth of staining fungus of the soluble extracts from unsplit palasan (Calamus maximus Merr.) after submerging in swift running water. *Philippine Journal of Forestry,* 2nd quarter, 1955, v.11, nos.1-2, p.79-85. Bibl.: p.83.

288. Sagrado, M. J.
Effect of submerging unscraped palasan (Calamus maximus Blanco) in swift running water on the occurrence of fungal stains. *Philippine Journal of Forestry,* 1st to 2nd quarter, 1955, v.11, nos.1-2, p.163-167. Bibl.: p.167.

INDEX OF AUTHORS

(Note: The numbers following the author's name indicate the item numbers of their publications as listed in this bibliography).
